# WINSYSTEM-GTC

## *THE VERTICAL SOLUTION TO FINISH WINDOWS*

**Through-feed high capacity line with in-feed and out-feed buffers**

**Reduced footprint with the vertical layout**

**Material handling and intermediate storage on trolleys heavily reduced by integrating operations**

**Increased productivity by relieving operators of physical effort**

**www.amsautomazioni.com**

- **Double gasket mounting on window sashes**
- **Adhesive tape for glazing: fast and accurate application on sashes and frames**
- **Clips mounting: up to 5 different types of clips**
- **Full integration with ERP systems**
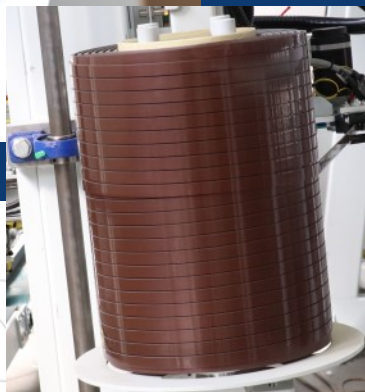

# SEALSYSTEM – A
## THROUGH-FEED GASKET MOUNTING

**Servo-driven gasket feed to avoid stretching**

**High precision with laser referencing**

**Accurate bending around the corners with "V-cut"**

**Several mounting patterns**

# SEALSYSTEM – AT
## GLAZING ADHESIVE TAPE MOUNTING

**High accuracy tape application on all glass openings**

**No gaps in the corners**

**Profile position detection during the whole process**

# 4CLIPS-X
## CLIPS MOUNTING ON ASSEMBLED SASHES/FRAMES

**5 different types of clips can be mounted on the same sash/frame**

**Flexible mounting patterns**

**Huge storage capacity, automatic clips magazines replenishing**
